Excercise SQL

Title of all lectures the student Schopenhauer attends.

Average Grade of the student Carnap.

Name of all professors who give at least 2 lectures.
Excercise SQL (cont.)

```
SELECT Persnr, Name, COUNT(LectureNr) AS NumberOfLectures
FROM Professors
LEFT OUTER JOIN Lectures
ON Persnr = Given_by
WHERE Persnr = 2127 OR Persnr = 2137
GROUP BY Persnr, Name
ORDER BY NumberOfLectures DESC
```
